

Southwest Arts Center presents

KENNY LEON'S
true colors
THEATRE COMPANY

Our Town

Thornton Wilder's *Our Town*

Directed by Kenny Leon
Assistant Director - Todd Kreidler

This timeless classic of the American theater is seen through new eyes in Kenny Leon's multi-cultural reinvention. Grover's Corners, New Hampshire is a small, out-of-the-way town whose citizens mirror the timeless concerns of all humankind. *Our Town* dramatically reveals that the daily events of human life, however painful, dreary, or inconsequential, are both a precious gift in their own right and a portion of the mysterious plan that rests in the Mind of God. An immortal tale that powerfully describes how we view ourselves.
